BioteQ Commences Sixth Season of Water Treatment Operations at Raglan

VANCOUVER, B.C.– BioteQ Environmental Technologies, Inc. (TSX: BQE), a leader in the treatment of industrial waste water, has commenced its sixth season of water treatment operations at Xstrata Nickel's Raglan site, located in the Nunavik region of northern Quebec. BioteQ's ChemSulphide® plant treats surface water, applying ISO 14001 certified standards for environmental compliance that meet very strict water quality requirements to produce clean water for release to the environment.

BioteQ has a fee-based operating contract with Xstrata, and is responsible for operating the ChemSulphide® plant as well as the Spoon water treatment plant at the site. It is anticipated that the ChemSulphide® plant will treat approximately 750,000 cubic meters of water during the 2010 operating season, depending on the availability of water after the snow melt.

BioteQ Corporate Profile

BioteQ applies innovative technologies and operating expertise to solve challenging water treatment problems, reducing environmental liabilities while delivering lower life cycle costs for water treatment. The Company's commercially proven technologies treat industrial wastewater contaminated with dissolved heavy metals and sulphate, producing saleable by-products and clean water that can be discharged safely to the environment. BioteQ has built 10 plants at sites in Canada, the US, China, Australia and Mexico, with additional projects in design and construction.

BioteQ's sustainable water treatment solutions have been recognized with the CIM/Syncrude Award for Excellence in Sustainable Development, the Canada Export Achievement Award, the Jantzi/Maclean's Most Socially Responsible Corporations in Canada, the Globe Award for Environmental Excellence, the PDAC Award for Environmental and Social Responsibility, the China Mining Environmental Protection Award, and the Mines & Money Sustainable Development Award. BioteQ is headquartered in Vancouver, Canada, and trades on the TSX under the symbol BQE. For additional information, please go to www.bioteq.ca.

On behalf of the Board of Directors

Brad Marchant

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Except for statements of historical fact relating to the Company, certain information contained herein constitutes "forward-looking statements" within the meaning of Section 21E of the United States Securities Exchange Act of 1934, as amended. Forward-looking statements are frequently characterized by words such as "plan," "expect," "project," "intend," "believe," "anticipate" and other similar words, or statements that certain events or conditions "might" or "will" occur. Forward-looking statements are based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. These factors include the inherent risks involved in the development, construction and operation of water treatment plants, variations in water quality, fluctuating metal prices, the possibility of project cost overruns or unanticipated costs and expenses, uncertainties relating to the availability and costs of financing needed in the future and other factors described in the section entitled "Risks" in the Company's Annual Report for the Year Ended December 31, 2009. Circumstances or management's estimates or opinions could change. The reader is cautioned not to place undue reliance on forward-looking statements.
